Piano Pop that Rocks the Brain and the Soul 11 MP3 Songs ROCK: Modern Rock, POP: Piano Details: WHAT THE BAND SOUNDS LIKE: "Astronauts," the band's most recent release, provides 11 tracks of mercilessly memorable, distinctive pop. HERE COMES EVERYBODY rocks without the aid of guitars and gobs of distortion. Rene' Ormae-Jarmer writes piano pop, pure and simple, full of hook and melody. Michael Jarmer sings while simultaneously drumming. His lyrics contain actual ideas and cover a wide emotional thematic terrain. WHAT THE PRESS HAS TO SAY: "Here Comes Everybody is one of those bands that defies expectation and bend the reigning local music stereotype of the day."--Jam Magazine "...a piano-sugared pop confection that's refined and sweet. With jaunty rhythms and melodies that sweep and soar, 'Astronauts' should appeal to anyone who enjoys the piano-pop revivalism of Ben Folds, Scott Fisher or hell, even Quasi's happier moments."--Willamette Week "...a small pop masterpiece...exploring mature topics with intelligence and humor..."--Two Louies Here Comes Everybody's "It's A Buick" has been recently featured on NPR's CARTALK. Grab 'ASTRONAUTS' and listen have a copy of your very own! (posted 07/10/03)
