REVIEWS: "Kathy Nelson hangs out the window on the curves, banging heart and soul together like pots and pans in the darkening forest."-Chuck Pyle "I enjoy all the songs on the CD, but I have to mention my favorites: 'My Only One' brought me to tears. 'My Insanity' -- we all listen to that one over and over again. But I have to speak to 'I Love You' -- what a powerful song. Great voice." -Betsy Bailey "I just wanted to tell you that I really enjoyed your CD. Insightful and touching lyrics abound, and your themes on redemption and belief in oneself are a real inspiration, not just for writers, but for anyone. Being a songwriter myself, I know how one can feel sometimes when someone else picks their favorites... because then you ask 'hey what's wrong with the other ones?' :)... well that's how I tend to think, but at any rate all of your songs were excellent, but I have to say that I love 'Remember'- great changes, harmonies, and of course your very visual lyrics ( the part about painting trees blue as a kid) was a case in point, and this feeling of non-conformity bled into the witty 'My Insanity'-- I loved this one, not only because of the reference to Dom Deluise :), but because you mixed it up in this one in your approach.

'Forgiven' is beautiful and peaceful, and 'Dream' I very much remember from your performance at the contest... keep believing indeed! You have a lot to offer... I can hear the passion in your voice and your guitar playing is polished... nice arrangements, especially on 'Forgiven'." -Chris Gavito "I am enchanted with your music. And very impressed. I have listened to the CD many times, and it continues to grow on me, to put more and more little roots down into my mind. You have an incredible talent." -Kate Trowe
