Katie is a singer-songwriter with an acoustic pop-folk sound like the Indigo Girls but a sound all her own. Perfect for listening while working, cleaning, driving or hanging out. Her soothing voice brings the listener into the moment. 10 MP3 Songs FOLK: Folk Pop, COUNTRY: Country Pop Details: I come from a musical family so I have genetics to thank for my talents. I've been playing guitar since I was 12, when I began six years of lessons that taught me the basics. In the spring of 2000, I began taking voice lessons at CCM (College Conservatory of Music) at University of Cincinnati. I took enough lessons to improve my range and vocal abilities. I used to make tapes for people as presents when I was in college and had no money. A few years ago, a friend said to me, "Katie, my tape is wearing out. Can I have a new one?" I told her I'd do one better and proceeded to record my first CD of cover songs. In the following year, that CD made its way from Ohio to Portland to Australia and elsewhere. In the spring of 2002, people started getting itchy for another CD so I went into the studio and recorded another CD for friends, family and beyond. I have since recorded a Christmas album. My songwriting path began in 2003. I've heard that something good or something bad has to happen to write your first song. During a trying time, I wrote my first original song, "Time for Goodbye". Since then, I've written more songs - most of them with a happier theme - that have been fun to introduce at the live shows. I've been playing guitar and singing at various clubs in Cincinnati for about 4 years and singing for weddings since I was 17. Like many people, the reason I do this becomes crystal clear when I play for a live crowd. To watch people's reactions and see them sing along is worth all of the sound checks, lugging gear and money spent on equipment. 2005 is a milestone year because this is when I release a CD of all original songs. I have always loved playing other people's songs but these are close to my heart because they came from my heart. I'm excited to share them with all my fans!
