avant-folk songs built on acoustic guitar and atmospheric blues harp 10 MP3 Songs FOLK: Modern Folk, ROCK: Acoustic Details: Lucas Klotzbach is an avant-folk songwriter of gothic Americana holding onto the Beat bible passed on by Dylan with his ear to the ground of traditional folk and blues music.

Klotzbach's songs depict a world of love and life gone wrong, where death can not be forgotten, and religion may or may not offer salvation. Singing with a hushed intensity over driving acoustic rhythms supported by a fractured and aggressive approach to the blues harp, his music has been called "brooding" and "aching with honesty" and compared to Skip Spence's Oar . Klotzbach is not your typical singer-songwriter or solo acoustic act.
