Beyond acoustic folk, Noel's music will paint a picture, tell a story and transport your heart and spirit to those places and people of which he sings. 8 MP3 Songs FOLK: Gentle, FOLK: Political Details: Noel has been a singer/songwriter for more than thirty years yet many of you have never heard of him or his music. You see, as with many talented musicians, obligations and responsibilities fill ones time until days become weeks, weeks months and months years. You work, fall in love, bring wonderful children into this troubled world and then strive to be all and give all to those lives that depend on you. Your hopes and dreams are replaced by the hopes and dreams of your loved ones. One morning you awaken to the reflection of a man in the mirror whose hair has turned to snow, whose eyes bear the lines of a million smiles, yet is content in the knowledge that you have given your all for your family. After 30 years of hard work and endless hours it is his wife and three grown sons that have asked Noel to reach out to those hopes and dreams of a young man and share his God given gift with all those who would listen. If you are looking for music that is something special, that will touch your heart and move your spirit; that will tell a story and take you away from your busy life, look no further. The music has been a long time in coming but, I'm sure you'll agree, it was worth the wait.
