Details: Renaissance Dell'Arte is an Experimental Artist in the Audio-Visual performing industry. Any kind of artistic creation - music, theater, dance, photography, human psychology, science - serves the purpose of self-expression. They all are inseparably connected with one another in Renaissance Dell'Artes Artistic Universe - ever changing, re-inventing itself and completely dependent upon all elements for the creation of one dynamic system. Music of Renaissance Dell'Arte brings us to an imaginary world accessible to every listener. She uses the power of music, generating a new vision for our senses and sensibilities. Her music is visual with a choreographical dimension rousing our ears to be able to see and our eyes to be able to hear. Her music can't be reduced to only one definite style; there are many styles in Renaissance Dell'Artes music. Each work is unique, different from the others. Each sequence brings a new suggestion, atmosphere, contradiction, from drama to comedy, from obscurity to light. We don't know what is to come next. There are unexpected emotional scenes. The listener should be active, fully awake. Intriguing, questioning; maybe we'll find some answers, maybe not. Challenging the listeners to follow her path, she leaves them totally free in to imagine and connect with their own sensations by visual, theatrical scenes.
