This 180 degree turn was due to a new found relationship with God through Jesus Christ and he would not describe it as anything less than divine intervention. Taheem did not perform any of his work until May 04' when he finally ventured out to Twisted Tongue @ Alice Mae's Soulfood Cafe. Unexpectedly, he heard some of the hottest performers in the area including godchild the omen and Queen Sheba, who both inspired and encouraged him to continue to write and perform poetry and he has done just that. Although he was given the name "Hi Def" after a recent performance in Hampton, VA, he still remains simply Taheem Jamaal. Recognized as one of the premier poets on the VA poetry circuit; he continues to walk in humility, expand the versatility of his craft, and move crowds to tears. After winning several slams in 2005 from Norfolk to New York; he began branching out to feature at various venues from TX to the genesis of spoken word for Taheem: VA. At the tender age of 24, this wordsmith has embraced spoken word as a new found love, so continue to watch closely to see exactly where poetry takes him. His debut album Anger Management, released on July 7th 2006, is a fusion of hip hop, a'capella, soul, and spoken word versatility. Taheem is available for features, hosting, workshops, church services, community services, and will occasionally update your resume (seriously). Keep him in your prayers and he will continue to glorify God not only through performance poetry but through his lifestyle. Taheem has won several slams, featured in venues in various parts of the US, and has taught and performed his original poetry in

churches, public schools, and alternative schools alike. For information on booking Taheem for features, hosting, or workshops please e-mail booking@taheemjamaal.com.
