A pop connoisseur's pop artist, master of the 12-string jangle. 12 MP3 Songs POP: Power Pop, POP: Beatles-pop Details: Wow! From start to finish, this may be Bobbys finest solo disc yet. There is a terrific flow between the tracks, and Never A Time will compete for Song of the Month - if not Song of the Year honors. In Bobbys own words, this song has my best Jim McGuinn impression ever Think a bit of Eight Miles High or Why. I think I nailed the exact tone. -Eric Sorensen, Fufkin Known to some as co-leader in the 80's (along w/Tim Lee) of indie pop band The Windbreakers, this 2007 release that, after following the transcendent Perfect Dream ups the ante to another creative level. Featuring Guitar and mixing contributions from Chris Stamey (dBs). Jangle pop at its finest! WOULD SOUND GOOD ON A MIX TAPE WITH: The Byrds, Yo La Tengo, The Church, R.E.M.
