[DOWNLOAD HERE](#)

It contains blend of Bob Dylan, John Lennon, Pink Floyd, Creed, Dave Matthews, Eric Clapton, America and Jimmy Buffet music. 10 MP3 Songs POP: Power Pop, ROCK: Acoustic Details: Winner of international Glory songwriting competition... and one of the top unsigned or Indie artists in NJ, Southeast Asia and online. His winning piece captivates the hearts of many. He is a self-taught singer-songwriter, guitarist bassist. He can write 3 songs a day... as fast as John Lennon-Paul McCartney's "a song per day"... He is one of the fastest songwriters alive! An average guy with exceptional songwriting talent! He records all "words music", all vocals, rhythm, lead and bass guitars. Arranges and produces his songs or albums. He was the rhythm guitarist of "Perlas Ng Silangan" (Pearl of the Orient) and currently the bass guitarist co-singer of the amazing "Wildwood Trade Winds". Nominated as one of the top Indie singer-songwriters in the world. His unique vocals and music styles include folk, rock, rock 'n roll, country, reggae, calypso, gospel, inspirational, tribal/ethnic and etc. He coined the music category called "Alterna-ethnic music" which is a tag of war between ethnic-cultural and alternative music. Some say that only a handful artists have unique styles which stand out... and pretty sure, he's one of them. The logics are... if you go to a school of classical music, the world expects the students to be future conductors or members of orchestra. If you go to a vocal school, the world expects the students to be powerful and trained vocalists. If you go to a school which teaches songwriting, the world expects the students to be great songwriters. If you go to the school which teaches musical instruments, the world expects the students to be great guitarists, keyboardists, pianists, drummers and etc. Those are expected outcomes... But EDDIE FLORANO didn't go to any of those schools. He calls it a way of life... just like B.B. King. Those are the reasons why Eddie Florano and B.B. King are different from others musicwise. They call it "gifts" than "skills". Sometimes, you have to pay attention to the unusual stuffs... like, for example, a

hermit who can fix a supercomputer or something:) ... or a young and uneducated man who can break the genetic code or something:) Plus, his songwriting abilities range from parable-like lyrics of Bob Dylan to the "party with lobster, shrimp and Margarita" kind of tunes like Jimmy Buffet's. So, buy his album or albums and experience the unique music of this future rising star...

\*\*\*\*\* ABOUT THE ALBUM: Coltrol+Alt+Delete or Continue \*\*\*\*\* This album tells us about life, love and the world around us. It describes our frustrations, inspirations, love, intellectual passages, parable, good time and relaxation! Well, that's life in summary... \*\*\*\*\*THANKS!!!\*\*\*\*\*
