Live Pop Performance. Nightclub Vegas-Style act. 9 MP3 Songs in this album (28:03) ! Related styles: EASY LISTENING: Torch Songs, EASY LISTENING: Crooners/Vocals People who are interested in Dusty Springfield Melissa Manchester should consider this download. Details: Sometimes a singer only has one chance to capture a full orchestra with strings..You Will be My Music..... as I have here opening for Danny Thomas At Resorts International in Atlantic City...with Arrangements By Colin Romoff....not the best sound quality...hopefully that will change with my next album.....so I thought some of you would find the live performance challenge interesting...not the same as in a recording studio.....far from it as a matter of fact...your vocal everyy is trying to please an audience and you lose some of the technique and perfect sound that you have in a studio....but my journey took me to the live venues and what was left of them with synthesizers replacing real instruments the large house orchestra in the Vegas rooms was disappearing...and alot of the jobs for musicians.....Enjoy!
