acoustic pop with the darkness and sweet mixed together poured over jazzy summer grooves. 13 MP3 Songs POP: Quirky, GOSPEL: Contemporary Gospel Details: After playing for alcoholics and prostitutes for so long I decided to "go internet!" I write what I want whenever the mood strikes me and recruit my many musician friends to help bring these lovely sound waves to you! Songwriting is a mystical craft that is hard to explain... It wants to be done and it wants to be heard..... and I must obey..... These songs feature real musicians playing real instruments without a lot of computer trickery. (for those who care) I would describe it as acoustic pop with a breezy, groove center. Pick it up before they're gone!
