An original collection of spirited rock and roll, mellow easy listening and melodic instrumentals in a unique blend of keyboard styles. 12 MP3 Songs EASY LISTENING: Soft Rock, COUNTRY: Country Rock  
Details: Just Because I Could is my third published CD, a new blend of keyboard instrumentals, easy listening and country rock-type compilations. A 53-year-old musician/songwriter, I'm still finding motivation to create more original songs in styles from Gordon Lightfoot to The Moody Blues, John Fogerty to Yanni, Emerson, Lake Palmer to John Denver, and in my own distinct manner. I also owe a great deal of motivation to my favorite local band from Massachusetts, Mark Pollock The Big Spenders and especially to a dear violinist friend, Faith Pyne. In an era where so much new music is painfully inept, devoid of substance and distastefully produced, I'm attempting to provide a little more entertaining sound and enjoyable artistry for those who truly have an "ear" for music. All vocals and harmonies on these songs are mine, and all instruments were created on a Yamaha P-80 Electronic Piano and a Roland RS-5 Synthesizer.
