"Electro Groove Metal" may very well be the best way to describe the four piece wrecking machine from Long Island. 14 MP3 Songs METAL: Industrial Metal, METAL: 90's Metal Details: Klank released their debut album "Still Suffering" on the Seattle based Tooth Nail Records (MxPx, O.C. Supertones, Living Sacrifice....) in 1997, which gave the band an immense amount of attention and notoriety. After spending 18 weeks on the CMJ Top 40 charts and having their single "Downside" added to over 170 radio stations nationwide, Klank formed a strong fan base with their constant touring and intense live shows. Klank has now begun to make its mark once again with their second album, "Numb", released through Progressive Arts Music. Klank has once again broken musical boundaries with a sound that is best described as Dancy Aggressive Dark Electronically Influenced Groove. Melody is prevalent within deep layers of guitars, keyboards, samples, live and programmed drums. Deep heartfelt, introspective lyrics that express a longing for inner peace, emotional mood swings, bitterness, despair and even elements of hope and happiness are wrapped up in the musical landscape. Writing music is a form of therapy that helps to release bottled up frustrations and emotions that otherwise have no outlet. "We write music that we feel comes from deep down inside and a lot of people can relate to them because they are all based on real life situations and emotions. We all deal with issues in our lifetime and here is our chance to vent those issues", explains Diolosa. Klank consists of Darren "Klank" Diolosa (ex - Circle Of Dust Argyle Park) on vocals, guitars keys, Pat Servidio on guitar, keys, programming, Danny Owsley on guitars backing vocals and John "JMF" Zaletel (ex - Great Kat) on drums percussion. "Numb" was recorded, engineered, produced, mixed mastered by the band at their own studio, 54, recording facility. The album shows much maturation from that of their debut, which includes the single "Blind" which again made it into the top 40 on the CMJ charts. A video was also filmed for "Blind" which has become a regular fixture on the Much

Music channel. With drive and ambition just as big as their sound, Klank is once again forging ahead and making waves in the music scene today.
