

Mp3 Lux Tweaker - Zentra

[DOWNLOAD HERE](#)

Fusion of electronic and ambient elements with some world influences. 6 MP3 Songs ELECTRONIC: Ambient, ELECTRONIC: Down Tempo Details: Behind the project Lux Tweaker stands composer Hendrik Groger. Zentra is based on music, which had been commissioned by the fire dance group Firemystics for a 20-minute performance. On this release the music had been edited and remixed. Additionally Zentra features two other tracks: Zentra, and The Seventh Man. The mixture of electronic and ambient elements with some world music influences makes this music easy to listen to. Sometimes dark in character the music takes the listener on a mystic journey. The last track is the darkest and is a down tempo trance track - very sparse and hypnotic when listened to in the right state of mind.
