[DOWNLOAD HERE](#)

Vocal and instrumental music specifically created for computer slideshow background music. 20 MP3 Songs in this album (57:08) ! Related styles: EASY LISTENING: Background Music, POP: Quirky People who are interested in Bob Dylan John Lennon Jimmy Buffett should consider this download. Details: These quirky tunes are specifically written and recorded for the purpose of background music for computer slideshows. These songs are perfect for Windows Photostory, which is a slideshow feature on most computers. Each song runs about three minutes which is great for quick shows containing 15 to 30 pictures. We tried to think of every subject matter used in a slideshow We think youll be pleased with the results. With song titles such as Cute Kid, My Dog, How Did you Spend Your vacation, family and Friends, Rockin Halloween .. choosing the right background music for your project is a no brainer! So take your pictures, create a quick and professional slideshow using these songs and email them to your family and friends! Hey, if you just want to kick back and listen to the music. Thats OK too!
