Darkwave, Synthpop with fiery female vocals. Lush synth soundscapes. 10 MP3 Songs ELECTRONIC: Pop Crossover, ELECTRONIC: Industrial Details: Gray is Tristraum's debut release. After their first single "Shiver", Tristraum is back with Gray. Ten tracks of emotive female-driven synthpop/darkwave/goth. It's hard to classify this electronic album due to the varied soundscapes. Driving dancefloor tracks are mixed with downtempo melodic ballads. In addition to the lush soundscapes, live piano and cello accompany tracks. Gray includes two covers. The Fixx's "Chase The Fire" and Gary Numan's "Walking With Shadows". Gray also holds a collaboration with MODyssey resulting in the title track. Krystyna Eller, lead vocalist has often been compared to Kate Bush and Jimmy Sommerville (Bronski Beat, Communards). Enjoy Gray.
