Premium FB Timeline Covers Pack 3 15 of the Premium FB Timeline Cover Templates - Professional and Fully Editable PSD Templates! Now, there are other similar sets of templates out there already, but let me tell you what makes THIS set special... 1. They're premium quality and much better than 90 Percent of the free files you might find elsewhere on the Internet. Each template is really detailed with lot's of different subtle "effects" and graphics elements. 2. Everything is customizable... all of the things you see on these templates come on their own layer and can be customized. So you can change the colors, move things around, type in your own text, etc.. 3. Each template has a unique "look", and you get 15 of these

templates. And since everything is customizable 4. You can use these for any niche market 6. You can use these WITHOUT Photoshop - The PSD files can be used with Photoshop or PS Elements... but if you don't have any of these programs I'm also including blank (without any text) templates in "web ready" JPEG format that you can use with ANY graphics editor. Just type in your own text and you're done. Exactly what you get... 1. Layered PSD Templates. 2. 'Web Ready" JPEG graphics without text. 3. List of fonts used. P.S. These are fully layered PSD templates. Photoshop is preferred to use them, but you can also use them with any other program that opens layered PSD files (like Photoshop Elements or Gimp). And in case you don't have a program that opens PSD files, I'm also including "web ready" JPEG files that can be used with ANY graphics editor. *Works on both PC and Mac Premium FB Timeline Covers Pack 3 Comes with Personal Use Rights.
