

Ecological And Genetic Implications Of Aquaculture Activities

[DOWNLOAD HERE](#)

FOREWORD- INTRODUCTION- 1. Environmentally Responsible Aquaculture A Work in Progress; Theresa M. Bert- SECTION ONE: OVERVIEWS OF ECOLOGICAL INTERACTIONS- 2. An Ecosystems Approach to Risk Assessment of Alien Species and Genotypes in Aquaculture; Devin Bartley- 3. Indicators for the Sustainability of Aquaculture; Roger S. V. Pullin, Rainer Froese, and Daniel Pauly- 4. Sustainable Approaches for Aquaculture Development: Looking Ahead Through Lessons in the Past; Nai-Hsien Chao and I Chiu Liao- SECTION TWO: POPULATION GENETIC CONSIDERATIONS- 5. Genetic Risks of Marine Hatchery Enhancement: the Good, the Bad, and the Unknown; Dennis Hedgecock and Katharine Coykendall- 6. Preventing Genetic Pollution and the Establishment of Feral Populations: a Molecular Solution; Peter M. Grewe et al- 7. Behavioral and Genetic Interactions Between Escaped Farm Salmon and Wild Atlantic Salmon; Kjetil Hindar and Ian A. Fleming- 8. Genetic Management of Hatchery-based Stock Enhancement; Theresa M. Bert et al- SECTION THREE: CASE STUDIES- 9. Environmental Impacts in Australian Aquaculture; Damian M. Ogburn- 10. Effects Of Hatchery Rearing On Asian Seabass, *Lates calcarifera*, in Sabah, Malaysia; Saleem Mustafa et al- 11. Disturbance of Korean Lake Ecosystems by Aquaculture, and their Rehabilitation; Tae Seok Ahn and Dongsoo Kong- 12. Mariculture-related Environmental Concerns in the People s Republic of China; Jian-Hai Xiang- 13. Indigenous Species for African Aquaculture Development; Randall E. Brummett- 14. The Introduction of Non-native Fishes to Freshwater Systems of Peru; Hernn Ortega, Humberto Guerra, and Rina Ramrez- 15. Introduction of Exotic Species and Transplantation of Native Species Across River Basins in Venezuela; Hector Lpez-Rojas and Ana Bonilla-Rivero- 16. Impacts of Non-native Fish Species in Minas Gerais, Brazil: Present Situation and Prospects; Carlos Bernardo M. Alves, Fbio Vieira, Andre Lincoln B. Magalh"es, and Marcelo F. G. Brito- 17. Salmonid Introductions in Patagonia: a Mixed Blessing; Pablo Horacio Vigliano and Marcelo Fabin Alonso- 18. Introduced Anadromous Salmonids in Patagonia: Risks, Uses, and a Conservation Paradox; Miguel A. Pascual and Javier E. Ciancio- 19. Addressing Problems Associated with Aquaculture and Aquaculture Effluents in the USA: a Historical

Essay; Robert R. Stickney- 20. Productivity of Alaska s Salmon Hatchery Ocean Ranching Program and Management of Biological Risks to Wild Pacific Salmon; William W. Smoker and William R. Heard- 21. Empirical Results of Northeast Pacific Salmon Supplementation: a Preliminary Assessment; Robin S. Waples, Michael J. Ford, and Dietrich Schmitt- SECTION FOUR: POSITIVE APPROACHES TO ENVIRONMENTALLY SUSTAINABLE AQUACULTURE- 22. Macrobenthos as Biological Indicators to Assess the Influence of Aquaculture on Japanese Coastal Environments; Hisashi Yokoyama, Akifumi Nishimura, and Misa Inoue- 23. A Simple Experiment in Polyculture: Red Sea Bream (*Pagrus major*) and Ulvales (*Ulva pertusa*); Hashiro Hirata, Tatuya Yamauchi, Muneyuki Matsuda, and Shigehisa Yamasaki- 24. Microalgae, Macroalgae, and Bivalves as Biofilters in Land-based Mariculture in Israel; Muki Shpigiel and Amir Neori- 25. Beyond the Monospecific Approach to Animal Aquaculture the Light of Integrated Aquaculture; Thierry Chopin, Charles Yarish, and Glyn Sharp- 26. Using Natural Ecosystem Services to Diminish Salmon-farming Footprints in Southern Chile; Doris Soto and Fernando Jara- CONCLUSION- 27. Environmentally Responsible Aquaculture: Realities and Possibilities; Theresa M. Bert- Index of taxa- Index of authors EAN/ISBN : 9781402061486 Publisher(s): Springer Netherlands Format: ePub/PDF Author(s): Bert, Theresa M.
