Good music for everybody from old to young its not a song on the album that you wont like.. 14 MP3 Songs HIP HOP/RAP: Hardcore Rap, HIP HOP/RAP: Hip Hop Details: BlackFrday is my new album i got the concept from the stock market world because Black Friday is the day after Thanksgiving and that's the day the stores and malls gain the most profit. So that's how I came up with the name and the color scheme is black and red because when most businesses make out there charts and graphs they use black for the rise in profit and red for the decrease in profit. I have mostly well known local artist on my album artist like The Dayton Family, Billy Smokes, and Tito' 6 just to name a few I feel that this being my first album it will go down in history... I was born Jonathan Darnell McMillian in Flint Michigan when at the age of 10 i already had the gift of putting words together in rap form at the age of 15 i went to my first recording studio and recorded my first record by the name "How you like me now" then at 17 i meet a producer by the name of Mark Tylor who took me under his wing and showed me a few things.....but at the age of 18 i felt that it was time that i realy did what i wanted to do which was produce a whole album which is what i did i hooked up with Bt A well known engineer who recorded, mixed and master my album i also got a hand from a few other great people in my city. and thats why you hear the great music that you hear i hope you enjoy it as much as i enjoyed making it.....
