"Faith" moves people in a deep and meaningful way with powerhouse vocals and ethereal music. 11 MP3 Songs GOSPEL: Contemporary Gospel, BLUES: Rhythm Blues Details: Carolan has a rapport with her audience that I havent seen in ages... She can really sing! -Ashley and Wynona Judds grandmother, Polly Rideout, after witnessing one of Carolan Bryants performances In the twenty years I have been promoting entertainers, Carolan is by far the most riveting and promising female performer I have ever seen. Her voice is unique-no one has her sound. Imagine the vocals of Alison Krauss blended smoothly with that of the late Janis Joplin- that is the only way to explain her incredible sound. She is a natural auburn-haired beauty with a flawless complexion and soft blue eyes: She is bright, witty and sweet-spirited. I am not a betting woman, but if I were- I would bet the race on this young lady! -Carolyn Taylor White- Carolyn Taylor White Entertainment Agency
