Folk pop with happy edge. Funny, witty and spirited adult contemporary folk rock 17 MP3 Songs FOLK: Modern Folk, ROCK: Folk Rock Details: This live album is a big gulp of my stage persona circa the 90's...when I listen now, I cringe a bit. I can only say that it's honest to the bone and great music to cook to. I won the Lilith Fair Competition some years back...so if you're looking for genre comparisons... I have produced several albums since then...so I'm committed to honing this strange craft. Some writer once said of me: "Deborah writes with the quirkiness of Elvis Costello, exhibits melodic influences from Tom Waits to Suzanne Vega to The Police, and possesses showmanship that might be likened to Lily Tomlin and Spalding Gray. Alrighy then.... The best thing about this music is that you can tell that it comes from a place in my heart where art lives. Enjoy! I founded Artists for Literacy in 2000. If you search on this site for SIBL (songs inspired by literature) you'll find some more CDs...or check out artistsforliteracy.org
