Related styles: FOLK: Free-folk Details: This CD, Moments of Grace, mixes images of a lost look in the moon tonight, a river running with chocolate cake, delicious contours of night, being caffeine-fueled in hyper-postulation, a chance to get it right, space-time going warped, a lover seen in the morning mist, glasses clinking in the twilight hush, howling winds and breaking fires, watching hands give sound to steel, soldiers taking new orders to their hearts, the secrets of creation being told, an offer from a Jagad Guru, and many other images that give shape to this CD. Listen to a few. If you like many, go ahead and put the album on your cart. If you particularly like just one or two songs, which is often the case with many albums, go to one of the many net music stores with which CD Baby contracts (most of them - pick one!) and simply download the song or songs there. In this way you get the song(s) you want while still supporting CD Baby and its artists. John is 62 and lives in Fairfield, IA where he spends many hours every day performing Yogic Flying in the Golden Domes of Maharishi University of Management, as one of Maharishi Mahesh Yogis world peace warriors. (The song "Close the Eyes" is a tribute to His Holiness Maharishi Mahesh Yogi.) Thank you for your patronage.
