Blues/Piano/Singer-Songwriter. "KT Live", the newest Katie Thompson CD, is exactly that: Katie Thompson alive and wailing. Intimate, funny, and fierce. 19 MP3 Songs
BLUES: Acoustic Blues, POP: Power Pop
Details: Katie Thompson, of "What I've Done Right" (2001), does what she does best on her newest CD KT LIVE... perform. Hereby proving (not that any of us doubted) that she is not just a produced blues singer/songwriter, but an astonishing performer. Not only does she deliver her original piano/vocal versions of favorites like: "Do You", or "Stay", but the songs she said shed never produce because they were too silly, crazy, or incriminating such as: I Can Be Bought, Hurry it Up, and Body Pillow. She reinvents cover-songs like: Tina Turners Whats Love Got to Do With It, Tori Amoss Leather, and The Bangles Eternal Flame all in such a way as to convince you that they were hers Katies from the beginning. This CD, compiled of live recordings from 2005, is the ultimate fan must-have, and the utmost must-hear for anyone who has never heard of Katie Thompson.
