JAZZ: Jazz Vocals, JAZZ: Smooth Jazz Details: Known as "Soulful Jazz," Monica Dillon's smooth sultry sounds invigorate the weary and soothe the stressed. Whether communicating with her ivories or lyrically exercising her voice, this new talent is quickly learning how to charm an audience and hold her own on stage. Monica is a native of New Orleans, Louisiana where she calls herself the product of the many teachers and mentors who have shared wisdom with her throughout her travels. She credits her first piano teacher, Rose Marchand for having instilled in her a driving spirit and a dreaming heart. You can do whatever you want to do is her mantra and message every time she takes the stage. She is a graduate of Vanderbilt University where she graduated in Electrical Engineering - through it all, the arts, and music in particular never left her side. Although her love affair with music started at an early age with several different instruments, Monica eventually found a home in front of 88 keys, a microphone, and the stage. It started with her ear. Her heart soon followed, with her intellect close behind. Today, she continually works at fusing the three while studying the masters. Many of the timeless greats as well as contemporaries such Mulgrew Miller, John Coltrane, Ella Fitzgerald, Nina Simone, Joe Sample, Cassandra Wilson, Rachelle Ferrell influenced Monica's ear and spoke to her heart. Monica merges various genres of music in her repertoire including jazz, gospel, R B, and adult contemporary. She holds firm to the belief that versatility and a desire to be a better musician will continue to motivate her to study other genres such as African and Latin Jazz. Monica's versatility has afforded her the opportunity to share special moments with fellow musicians and friends at several events including concerts, weddings, music conferences, campaign parties, poetry venues. No matter where she plays, from the River Parishes to the Big Easy, Monica adds her secret ingredients to a soulful recipe that keeps getting better.
