These love songs plus 1 fun calypso are easy pop, most with a gentle flavour of R B and should appeal to most ages. 8 MP3 Songs EASY LISTENING: Love Songs, EASY LISTENING: Vocal Pop Details: Mothers Day Music for Everyday Hi - Im Norma Martin and on this CD I sing 7 of my contemporary songs, varying in style, with Bonus Track 8 being a reprise of Everyday Is Mothers Day, ie: a shorter version. There is a song for every woman on this CD : Mums, Grandmothers, Daughters, Sisters and Friends you name them. Everyday Is Mothers Day We Mums always work hard and its lovely to have a special day to be made a fuss of, however I would like you to think this album is a gift for any time of the year for your Mum or special lady, including Mothers Day. Come With Me Away A fun Calypso about going away on holiday or by just imagining you are there relieving the tedium and giving you mental rest: sometimes its all you can do when you cant get away. In fact thats how I came to write the song just imagining being away on holiday in Fiji, Hawaii, anywhere in the Pacific or The Caribbean or you choose your favourite Island. Also my lovely husband David early in our marriage did actually come home one day and surprise me with tickets to go away on holiday. That is a great fun memory. A Faithful Man We girls know that a guy doesnt have to prove hes masculine by playing around, right? In fact if you know hes the steady reliable type thats hugely endearing and sexy: if you know you can relax and be sure of him you can go ahead show him without holding back. Am I wrong, Girls? The Love Of Your Life Fairly based on the experience my husband and myself we met many years before we went on our first date through circumstances. We have just celebrated our 28th Wedding Anniversary. Have a look Girls your guy may be nearby. Find It In Your Heart (Say this to me) When you have a fight and youve both gone in your separate directions, this is what you wish your Guy would come back and say to you. Love Songs Finally finding your soul mate so lifts your heart and makes it sing. Love Is All Too Easy I got hooked on those

Real-Life TV Shows that have the girls all competing for the affections of 1 man. I couldn't help watch even though I thought how can they possibly think they will find the love of their life this way?! Seemed too easy. But why not?! On the other hand when things go wrong - how often we just walk away from trying to work it out? Seems easier option, but if you only do try and work it out the outcome can be so much more rewarding and lasting. Ask yourselves seriously: Do I really wish to live in this world without them being at my side? If the answer comes right away No then you know you should try and work it out. The only case I think this doesn't work is if your partner is constantly unfaithful show them the door!

Norma Martin is based in Sydney Australia and started performing as a singer on TV at the age of 15 and has always been a songwriter. Singing took her to work in various parts of the world like all over Australia, New Zealand, Noumea (8 months), Vietnam (to The U.S. Forces in 1969 for 5 months), London for 4 years. Loving to travel, she and husband David have been to The United States a few times, which they love and taking in the New York Jazz, and all the art and shows. Norma took 17 years off from singing to be a stay-at-home Mum and had the good fortune to be able to concentrate on raising a family, a son Andrew and a daughter Sarah, who are now in their twenties, with husband David Martin. She couldn't stop writing though and all of these songs were written during that time. One song that has gained Norma Martin recognition as a songwriter is a Jazz Ballad Introduce Me To Your Friend which has been recorded in The United States by wonderful Jazz Artist Mitzi Zilka, whose great version of this song may be found on her album Something Good on this CD Baby website. Introduce Me To Your Friend was originally recorded by foremost Australian Jazz singer Emma Pask on her album This Madness Called Love. People who are interested in Dusty Springfield Anne Murray Vanessa Williams should consider this download.
