

Mp3 Only Ed And The Almost - So Far, So Almost

[DOWNLOAD HERE](#)

"Giddy pleasure overtakes you when listening to the music of Only Ed. It's full of geeky irony without a hint of pretense -- it pokes fun but with a sense of humor and self-deprecation. Good times are sure to be had by all." -CNET Music Downloads 19 MP3 Songs POP: with Electronic Production, POP: Party Pop

Details: Only Ed and The Almost is one guy, a paying job, electricity, a keyboard, a guitar, a drumstick he hits things with and a computer to mix it all up. Ed has ideas: some pop, some punkish, some "alternative," some experimental, some highfallutin, some poignant, some funny, some not so funny. That's his first CD, over there on the left. That's why you're here, unless your visit is a horrible mistake. Listen and decide. These tracks are also available for downloading a la carte at iTunes, MSN Music, Sony Connect and many other places. Check out the full, unedited versions of some of these songs, as well as many new ones, at SoundClick: soundclick.com/bands/8/onlyedandthealmost_music.htm Ed's second CD, "Only A Rumor," is also here at CD Baby: cdbaby.com/cd/onlyed2
