

Aliens! - Mark Cheatham

Earth is a small part of an enormous (possibly infinite) universe, so there's a good chance we are not the only intelligent life forms within it. Some people believe there are not only aliens in outer space, but that they visit Earth from time to time. Readers will find out some of the facts and fiction behind alien abductions and follow the tale of one of the first documented cases where a couple claimed to have seen a UFO and been taken aboard the spacecraft by aliens. We may never know the explanation for what they claimed to have experienced, but their story will spark the imaginations and curiosity of young readers.
