What do you call an unborn baby? Yeah, it's kind of like that. How do you describe it? You don't. You just enjoy it. So please, enjoy it. 18 MP3 Songs POP: Piano, ROCK: Acoustic Details: The Methedrine LP is Bethesda's second and most anticipated album to date. Words cannot describe the emotion that went into these songs and stories. Unlike Home Sweet Home, the majority of music on The Methedrine LP is built around sounds from a Baldwin upright piano, a gift from my mother. I also incorporated a lot of bass guitar, synths, strings, and some interesting acoustic and electric guitar arrangements. This album started off as an EP. I originally only wanted to write 4 or 5 songs for it. As you can see, 5 songs turned into 18 tracks, all of which are full length songs. "Methedrine" was the first song written, hence the title of the album. It was that song that showed me that the memories of drug abuse and crazy things I went through were still new to me. I always thought it was best to hide those things. I was afraid to talk about a lot of it because no one wanted to hear it. In the past, people were very uninterested in that part of my life. But as most of you know, things we hold in are bound to come out some time. The Methedrine LP has been very healing to me. It's allowed me to let go of the things I was holding onto and I hope it does the same for you. I put my heart and soul into each and every one of these tracks. And I believe that everyone on this earth has gone through what these songs talk about in some way, shape, or form. This is not like 85 of music today. This is real. Real people love real music. Sadly, there just isn't enough of it being made. I'm doing my best to change that one album at a time. I love you with all of my heart. Thank you for your continual love and support.
