Post-Punk New/No Wave Female-Fronted Hard Rock 10 MP3 Songs ROCK: Punk, ROCK: Goth Details: [Alternating] stark declamation with florid screaming psychosis, and punky fast fours with elaborate and challenging rhythms[Blitzkriegbliss] sound like nobody else, ever. Maybe if Diamanda Gals had fronted Romeo Void, or Patti Smith were possessed by Nina Hagen, but not in this realityThe singer does just about everything imaginable with her voice except actually sing: she declaims poetically and quasi-tunefully a la Patti Smith, she squeals, she yips, and she rips out the most mind-blowing don't-mind-me-I've-just-been-gargling-with-ground-glass shrieks and screams I've ever heard. Masterful! Steve Gisselbrecht, The Noise Blitzkriegbliss, formed in Boston in early 2004, have been described as a mix of the roaring of PJ Harvey, the bleak melody of Joy Division, and the prowling and spit of The Velvet Underground.
