Honest lyrics, pure melodies and rhythmic surprises in the contemporary, female rock style of Aimee Mann and Sheryl Crow. 12 MP3 Songs ROCK: Modern Rock, POP: Folkly Pop Details: A New York based Singer/songwriter and a full time working musician in New York, Claudia has spent the last year and a half putting together "Indestructible". From start to finish this project has been her focus, and represents her passion for writing, singing and her unique musical vision. Indestructible is her first release as a fully produced and packaged CD, the music is a culmination of songs begun two years ago as well as songs written weeks prior to the start of production. Her songs are stories, observations and moments in time that struck her deeply. A single word mushrooms into an intimate explanation or a bird's eye view into someone's life. Musically her writing reflects those moods and thoughts of the lyrics. The entire idea of the song and its story most often does not reveal itself until the song is complete, when it now breaths of its own accord. Claudia's vocals are another instrument to give the story a voice. Finding ones role and ability in music is a gift. Claudia's voice and writing are hers to give.
