Folk/Roots like the best of them from the best of the them. 11 MP3 Songs FOLK: Power-folk, COUNTRY: Country Folk Details: A not-so-rare look inside the twisted minds of one of the country's fastest-pickin', most-frequently under-promoted folk groups, the Dave Rowe Trio. Grab one now and see why visionaries and persons of note all over this fair country are saying, "Who?!" Yes that's right! Nobody knows them until they suit up in their traditional folk-music-approved Spandex uniforms; red, green, and fuchsia clown noses; and L.L. Bean fence climbing sneakers, and get in their pink and green stretched limousine outfitted by Eddie Bauer's lessor-known and less talented cousin Itzhak Arphool to drive to Blue Ball, Pennsylvania, just so they can say they've been there. And if that's not enough, they make some really good CDs that nobody, yours truly included, seems to know how to describe in any meaningful way. So just click on those sample links to the left and make your own decisionbut when you are finished please try clicking on the "Add to Cart" button. You will not be disappointed.
