

Mp3 Id - Inkspots

[DOWNLOAD HERE](#)

Underground Hip Hop in it's purest form, expressionist poetry with the revolution sound. Driving beats and fighting words with the soul of old. 9 MP3 Songs HIP HOP/RAP: White-Boy Rap, ROCK: Punk Details: Inkspots is an interpretation of the collective human existence and it's lumbering movement through the last 229 years. This commentary on the human condition and the conditioning of such, begins with the historical practice of demonizing cultures as a rite of passage necessary to enjoy the ill-freedoms of this country and ends with the monstrous achievements and poisonous ambition of this sleeping giant and it's tendency to rocket passed the problems that need to be faced. Accept this as a meditation on racism, consumerism, institutionalism, commercialism, Armageddon, genocide, fate, and drunk ambition.
