Out of this softer side of John come songs of love lost, crazy days, mysterious brunettes, music shop keepers, breakin' out, moments missed, junior high dances, buying a cookie, a Fed Ex lady, late-night popcorn picture shows, women on display, and a jazzman's riff, among many other images. Listen to a few. If you like many, go ahead and put the album on your cart. If you particularly like just one or two songs, which is often the case with many albums, go to one of the many net music stores with which CD Baby contracts (most of them - pick one!) and simply download the song or songs there. In this way you get the song(s) you want while still supporting CD Baby and its artists.
