This R&B, yet hip-hop type album has sounds that are unique and lovable.Being the Producer I, Jaykeyz,(Derrick Jamison), born and raised in Orangeburg,South Carolina show off my talents as I come out hard and heavy. Being that this is my first album,I let my listeners know that I'm ready to do my thang. My abilities are endless. I love to sample and create original hits. I love the hard hitters more because they have so much power. I wrote I'd Do Anything(I'm Sorry), on a level for the ladies and the fellas. All the tracks are produced by me. Look out for me because I am coming even harder with some club bangas. Karma, which is my sister, is a very talented artist. She will blow your mind with her vocals. She wrote all of the rest of the tracks on Not An Amateur No Mo'. Each track is a small peice of her life. Karma, also born and raised in Orangeburg, South Carolina has been singing all of her life. She even sung for Bill Clinton, accompanied by her High School Chorus. She has a unique sound that is very smooth. We are both trying to get to the top, because this what we love. I enjoyed working with Karma. You can look for our next album soon. This one is going to be ten times hotter than you can imagine. I appreciate all of the support on this album, and everyone who has contributed.
