Details: Multi instrumentalists/writers/producers, the Wilkinson brothers (U.K.) are the brains and brawn behind MO-FLY. Mixing elements of electronica, lounge, dance and broken beat with a slight leaning towards retro funk and soul flavours and a heavy dosage of highly addictive lyrical hooks. These 2 siblings have been writing and performing together since they were children and now, in their adopted city of Barcelona (Spain) where the mediterranean lifestyle and sunshine pervaids all, they continue to draw on their years of experience writing and performing music. MO-FLY is their latest musical offering, so sit back (or get up) and let the warm summer grooves take over for a while.
