Funk, Thump and Groove - three adjectives from music's lexicon that capture Mz. (Adrienne) Fishe's brand of music. Acid jazz-funk and smooth grooves poured out with positivity - creating a unique sound popular throughout the world! Backed by her explosive band, The New Groove - featuring Omar Phillips, Chris Burroughs (of Aura), Mike Weiss, Khari Simmons (of Jiva), John Beal (of Beal Street), James White, Darrell Hampton, Carlton Clark, Judson Crane, E-Man, the British funk-master Jeep Hook, and hot jazz violinist, Ken Ford - Mz. Fishe presents a musical tour-de-force on stage. This singer weaves an ultra-hip, ultra-cool amalgam of sound sensibility. Hear unabridged funk, sophisticated jazz and thumpin' dance grooves. What other words identify her sound? Mesmerizing, mystifying and alluring. She is currently living in New York, touring with the 10th Anniversary World tour of the hit Broadway show "RENT" and recording her next CD. Her songs are featured on several soul music compilations including Stonegroove Recordings, Soul of Solar Radio, both in the UK and Grooving for the Soul in the US. She, of course, would like massive and major exposure .....but is trusting all will happen in Divine time. Written by the JAZZevangelist@aol.com WBCX 89.1 FM
