balkan grooves. your wedding and funeral band. the powerful gypsyjazzsuperlatinfunkpunkpolkaband. 11 MP3 Songs WORLD: Balkan, POP: Party Pop Show all album songs: live in slovenien Songs Details: the cowboys of prekmurje are six musicians. all of them live in switzerland, but they come from different nations actually. the front man is peter santos (melodica, vocals) who is from austria and portugal. ueli pletscher (tenor - sopranosaxophone) is both finnish and swiss. jaro milko (guitar) is from prag, czech republik. beni brodbeck (drums) is a pure swiss guy. last but not least the brothers medjimorec: flo (tenorsaxophone) and martin (bass) are from slovenia and croatia. this international constellation results in a very open repertoire with a huge cultural background. the kavbojci feel very attached to balcan music but they also play melodies of movies and cartoons as well as funk- and latin songs. they also play own compositions in the very special uncompareable kavbojci style. the most important thing for them is to have a good ambience amongst the group and with the audience. when they play there's allways a good party! the group exists since spring 2002. the first legendary concert at the k.g.b. in maribor, slovenia, was a complete success. from then on they have released a cd of the first tour in Slovenia and had concerts in Switzerland, France, Slovenia, Portugal and Italy and released the cd "live in Slovenien" of the concerts they had there. The next cd release is in Spring 2007. Check out prekmurski kavbojci on myspace: [myspace.com/prekmurskikavbojci](http://myspace.com/prekmurskikavbojci)
