Big sounding adult contemporary pop music written and produced by Brian Baker and Split Enz/Crowded House keyboard player Eddie Rayner, and mixed by Hugh Padgham. 11 MP3 Songs POP: 90's Pop, ROCK: Classic Rock Details: The Makers were a band formed by Eddie Rayner and Brian Baker in 1989 after Eddie and Brian wrote and recorded a film score for the movie Rikki and Pete. The songs were written and early recording done at Eddies studio in Melbourne. At that stage it was an Atari computer and a Tascam 8 track tape recorder. The tracks were then taken to Platinum studios in Melbourne for additional recording. Eddies old mate from the Split Enz days, Hugh Padgham was bought in from London to mix the CD. In 1990, Eddie and Brian, along with drummer, Michael Barker, toured Australia with The B52s. This is big sounding 90s pop music, Eddies great keyboard playing and arranging, Brians guitars, soaring vocals and intelligent lyrics, and Hughs classic mixes make this a classy outing.
