YOU Can Compete with The Big Boys of Niche Site Marketing Using The Exact Tools & Resources Used to Build Their Virtual Real Estate Empires... Five figure AdSense earners reveal the tools and resources they use to earn a Six Figure Income year after year with Contextual Advertising and Google AdSense...
Date: Tuesday, January 19, 2010 From: David Bloomingdale Dear Friend, Have you ever wondered why certain Niche Site Marketers make Big Money with their Niche Sites and others are lucky to hit the \$100 payout? This is the most common question we are asked each and every day, when we talk about AdSense and Affiliate Marketing. Usually, before we get a chance to answer the question, the person goes on to tell us their 'theory' and more often than not, the theory is way off base. You see, if Google or Affiliate Programs decided to cancel your account or delete you right before you reached the payout number, they wouldn't have a very good business model. In fact, I've met hundreds of people that make 5 figures every month from AdSense and Affiliate Marketing and they all have one thing in common... but more on that later... One of the biggest mistakes marketer's make is to use listen to outdated information or use outdated tools & resources, and unfortunately, as vast as the internet is, you are bound to run into

this problem. But, don't worry, everyone has been in your shoes at one time or another. Use Proven Tools and Methods that are Still Working Today! Do you think Formula One racing teams use outdated technology and information? No way, they use the best of the best and, they have people working behind the scenes to stay ahead of the competition. This business model works extremely well for Niche Marketer's because once you have a system in place, you have to test it and improve your results to remain successful. This is where we come in. We've been consistently making money with AdSense and Affiliate Marketing for over 4 years and we've never stopped testing new techniques. We are going to spill the beans and give you the exact niche sites and resources we use to every day. I'll use the Formula One analogy again, if you were always finishing behind the Ferrari Team and they gave you the chance to see exactly what parts they use and the technology behind the winning formula, wouldn't you jump at the chance? I know I would! Learn from the Experts and Duplicate Their Success The secret to making passive income with AdSense and Affiliate Marketing is about the tools and resources you are using as much as the Niche you are marketing in. You can be marketing in a very successful, popular and profitable niche but if you don't have the right tools, it can be frustrating. Take control of your Niche Marketing Today! You can start using these niche sites to build your Virtual Real Estate Empire and what if I told you we'd give you Master Resell Rights to the sites and you could resell these packages yourself! Well, you CAN! Exclusive Site Building & Features You Won't Find Anywhere! SEO Keyword Article Management System - This is one of our "secret weapons". Remember that all your content is unique and fresh, created just for your site... then watch what happens each time a visitor (or search engine) comes to your site! The software allows you to specify what article you want shown for a specific keyword phrase. In the past, you were forced to use an article rotator on your site if you had more keywords than articles. Now you can specify a specific article per keyword or let the script randomly display an article. As you add more articles, you can easily assign them to new keyword phrases. SEO Friendly RSS Feeds - You've heard all the buzz about RSS, right? This is a whole new channel for your information, and the custom RSS script we've created (you can't get this anywhere else) creates RSS news feeds that the search engines will love. All you do is choose the keywords and the source of the feed, and the script does the rest. Affiliate Product Placement - Running AdSense ads is just one source of income - we've learned it's best to have each site bringing in multiple income streams. So we've made it easy to place Amazon products, Clickbank Products, and even your own products on your content site quickly and

easily. You just update one file - your affiliate products show on every page of the site. You can change your products anytime you want, and it's quick and simple to do. Easy Push-Button Updates - We've made it quick and easy to update your site with a few keystrokes. You can change all your ad codes (including AdSense), articles, navigation elements, footer, and affiliate products by just inputting the new data. Then the changes take place automatically across your entire site! Experiment with AdSense colors and sizes, add new channels, new affiliate products - it's easy as "1-2-3". Add New Rotating Content With Ease - If you want to keep your site growing, you must keep adding content. We make it easy to take your new articles, save them to the articles folder, and "bam!" - you have new content that starts rotating instantly. State of the Art Control Panel to Manage Everything Brand new admin area for every site: Each site comes with a built in admin area to manage your content site(s). Login to your admin area and make changes to your site, add articles, manage keywords, edit the configuration file, add pages to the site, add links to the pages and edit your affiliate program info. This new feature makes it simple for even a newbie to build a virtual real estate empire. Edit and add articles in the admin interface: Upload new articles, edit existing articles with a click of a button. This exclusive new feature can add a ton of new content to your site easily. Change the titles, change the content, modify existing articles and add as much content as you wish, with a few mouse clicks. Add and delete keywords in the admin interface: Easily add new keywords to your content sites and delete keywords that you no longer wish to use. This feature has great potential to change your sites as your niche changes. For example, imagine having a Gaming or Playstation site up and already indexed by the search engines. When the new PS3 or Nintendo Wii hit the market, all you had to do was add the new keywords, new articles and you are already one step ahead of the competition. No need to wait for the search engines to list your site. The potential for this is huge. Keyword Article Management System: With our new exclusive article management system, you can assign articles to keywords and keyword phrases. That way when a certain phrase or keyword is searched and someone arrives at your content site, they will see the exact article you want them to see. You can assign one article to one phrase or as many keywords and phrases that you wish or you can allow the system to rotate your articles for any given phrase. TOS, privacy, links, contact pages, editable in the admin interface: These pages are very important in adding validity to your content sites. You can add/edit and manage your TOS, privacy, links, and contact pages right from the admin area. Add your info, click a button and that's it. Robots.txt and custom error page: We've added a couple of very

important pages to our Phase 2 sites. Manage your robots.txt and 404 error page file right in the admin area. Control which bots you want hitting your pages and which pages you want them to see. Also, add affiliate info or products to your 404 error pages and capitalize when someone arrives at an error page. Configuration file editable in the admin interface: Edit your configuration file right from the admin area. No more FTP (you can still use FTP if you'd like but now you don't have to) just login to the site admin area and add/edit your details. Add an AdSense Channel easily, change your Amazon ID, Rotating phrases for title, description and headlines: We understand how important title, description and headlines are in the search engines. The search engines put a lot of weight into these when crawling your sites. Now, you can add different phrases, descriptions and headlines that will be rotated on your content sites. This will also lower the footprint of your sites. Image rotation next to AdSense and Affiliate Ads: Add as many 125x125 images as you want to your sites and the images will rotate as your pages load. This helps change the appearance of your sites and make them more appealing to your visitors. Dynamic Links pages with one file to edit for the layout: We've changed our links pages to be dynamic and they can be edited in the new Admin area. This allows you to change your links occasionally and remove links that are no longer valid helping you keep up to date and relevant content on your sites.
