Most people just starting a blog dont realize this until they start working on their blogs and then realize that they are still required to do a lot of work to get those blog posts up. Worst of all, you have to do this all the time to keep your blog up to date and keep your blog fresh with the search engines. So what can you do to solve that problem? Well, unfortunately, there is no process that will help make this work go away for you but all hope isnt lost! What if I told you that there was a solution that eliminated ALL of the tasks above that I just mentioned? What if I further told you that this solution also posted the content to your blog automatically for years (if thats what you want) while you sleep, hang out or vacation? Would you be interested? Most people would be which is why Im so excited to announce the release of...
