Pop Rock Folk music and, just for fun, an Irish-punk undertone. 15 MP3 Songs POP: Power Pop, POP: Folky Pop Details: Good Citizen is a trio from the Long Beach area of Southern California consisting of (mostly) Bass, Guitar and Saxophone. Gene Whitright, Dina Predisik, and Carrie Barrios - respectively. This album is a culmination of new additions, cut songs and newly written songs addressing different feelings and definitions of "Faith". It's a personal album but still has enough pop over(and under)tones to bop along with. From "Strange Little Man", a song about the death of the family farm to "Don't Push" a song of sex, sex, sex; Good Citizen crosses genres and emotions while - tongue often planted firmly in cheek - getting toes tapping. Intelligent, often funny lyrics accompanied by top-shelf pop/rock/folk music.
