Juan Prophet Organization has been traveling over the north and southeast for the past four years. Ripped from the rich soil of Louisiana, the minstrels have found shelter in Murfreesboro, TN where they have established themselves as the most sought-after vaudeville rock band in the region. The versatility of their music has allowed them to entertain the most diverse of audiences with instrumentation that consists of but is not limited to guitar,bass,drums,piano,violin,accordion,vocals, banjo,trumpet,clarinet,coronet,glockenspiel,percussion and other sounds. It is said to leave a powerfully nostalgic yet uncertain taste in the mouth, possibly a remembrance from times on earth when there were no secrets. We here at JPO thank you for your time, and salute you for being human. Juan Prophet Organization is about to release their new album, "The Carrot and the Stick", and will be touring regionally in the Spring of 2005, where they are eager to reunite with familiar faces, and then nationally in the fall, where they are eager to lay seeds in unknown territories. They enjoy wonderful crowds when on tour and have played with acts such as Drums and Tuba , Skeleton Key, Faun Fables , Whole Fantastic World, Bob Log III, Dead Meadow, Polemic and have enjoyed many shows with Sleepytime Gorilla Museum. The band's members act as tour guides in a wild ride through countless musical genres with grace and style...without losing the audience's interest."
