JAZZ: Smooth Jazz, EASY LISTENING: Mood Music Details: LARRY JAZZ: A native of San Francisco, California. Larry has been a student of music since the age of nine. Gospel music has been a large part of Larry's life and career. I thank God for my parents, they made me what I am today. I played drums in the church. Which allowed me to perform many of my original songs during church events as well as Sunday morning worship. Throughout junior high school and high school, I was very active in sports as well as school entertainment. (i.e. band, dances, private parties and concerts). Larry Attended Balboa High, graduating with his diploma in 1982. I worked with the stage crew which gave me the opportunity to become proficient in stage set up, lights, organization, and instructions. I performed in clubs, private parties and concerts all throughout the Bay Area. I played keyboards for a lot of local bands. In doing this, I got a chance to perform many of my own original songs. **RECORDING EXPERTISE:** I have mastered the 8,16 and 24 track studios. Moreover, I'm well versed on Protools software. I also have skills playing drums, keyboards, and bass guitar. I produce music for dance, ballads, gospel, jazz, and rock and funk groups. I have worked with local artist such as Crist Abad, Candice Love who sang on the Dr. Dolittle's soundtrack. I also worked with The Newtrons, another local group who signed with MCA. I help stage the showcase for the Jackson family. In doing this, I got the chance to meet Janet and Michael Jackson. I remember this as though it happened yesterday. I also rendered my talent on Soni Carrington's CD and Tyrone Triggs CD. These are two locals with a whole lot of talent. **ARRUA RECORDS:** I have recorded under my own label Arrua Records, my smooth jazz CD called: Sunny Days. I hope you like my CD. If so, please tell a friend. Thank you so much for your support. MAY ALL YOUR DAYS BE SUNNY DAYS... ++
