Bursting onto the scene in summer 2005, Lucky Days blend of urgent hooks, soaring melodies, and ethereal vocals has already won them performances at the 2006 National Cherry Blossom Festival (Washington DCs signature springtime event), the 2006 National Capital Barbecue Battle Festival (voted one of North Americas Top 100 Events by The American Tourism Industry Association), and Virginias Six Points Music Festival (other bands in this years lineup include Army of Me and Emmet Swimming). Most recently, Nashville-based Double D Records selected Lucky Day to record a track for a Superdrag Tribute album; it will be released internationally this April. The Washington City Paper proclaims, Lucky Day creates some of the most ear-pleasing Brit-poppish sounds weve heard in a while, and listeners agree: Lucky Days home-studio demo "Look at Me Now" debuted in the top 3 in its first week on The Washington Posts MP3 site (6/05) and "Rainy Days," the single from their upcoming EP "All My Rainy Days," reached #4 (11/05). Only weeks after forming the band, Lucky Day recorded their 6-song EP at The Mouse Trap in Louisa, Virginia with engineer/producer Stewart Myers (Agents of Good Roots). They went into the studio as a three piece - Victoria Patchen (vocals), Brian Huber (guitar), and Adam Gierisch (bass), not yet having met drummer Dave Ray, who has since joined the ranks of Lucky Day. Brian Jones (Jason Mraz, Rachel Yamagata) sat in on drums, and Daniel Clarke lent his talents on keys. Fred Kevorkian (White Stripes, Ryan Adams, Dave Matthews) mastered the EP at Avatar Studios in New York City. While the release of

the EP is slated for April, advance copies are already garnering praise from music enthusiasts, DJs, and reviewers alike. Z104 spun the single from All My Rainy Days on their Capital Scene show, and their songs have been broadcasted on other radio stations and podcasts around the country. The bands songs move from moody and mellow (as in their single Rainy Days) to upbeat and raucous (as in their power pop gem Time Will Only Know). Whatever the style, the melodies are catchy and the lyrics are accessible, focusing on everything from rocky relationships to world views. Smotherhas already chosen the EP as an editors pick: ...Victoria Patchen spews forth vocals that are beautifully melodic and with additive harmonies that tie the germane angular guitar hooks and undercutting bass grooves together neatly...the overall sound and the resulting pop-rock amalgam is cheerfully catchy... The official EP release party for All My Rainy Days is April 15 at Jammin Java in Vienna, VA; the band will share the stage with popular Connecticut-based band the Alternate Routes. In addition to the DC area release, Lucky Day will travel to New York City for a second EP Release Party at Kennys Castaways April 22, and will continue to tour the East Coast throughout 2006 to promote "All My Rainy Days." The EP will be available nationwide on Awarestore and at various other music outlets this spring. To learn more about the band, hear songs from the new EP, view upcoming tour dates, or to purchase All My Rainy Days, please browse this website. As the Washington City Paper proclaims, Listening to the bands songs will add to anyones good fortune.
