A cappella celtic fiddle and vocals, performing traditional tunes you'd hear at your favourite renaissance festival or Celtic Fest including ballads, jigs, reels, pirate tunes, and much more. 13 MP3 Songs WORLD: Celtic, NEW AGE: Celtic New Age Details: Definition of NeidFyre: Old English word for a fire ceremonially generated by intense friction between two pieces of wood. Seeing how I love to play jigs and reels, and the imagery NeidFyre creates, I couldn't think of a better name to call myself when performing. NeidFyre is comprised of me, Mel Ginsberg-Stevens. A Long Island transplant in Upstate New York, I've been enamoured of Celtic and traditional music for longer than I can remember. I began playing the violin some 24 years ago and singing about the same time. During the past four years I sang with different people in different incarnations of groups, but in 2002 I decided to take things into my own hands and began performing solo. The end result of these endeavors is Duck Feet Waddling.
