

Mp3 Suzanne Benorden - Boomchick

Call it igneous rock. I don't know why but it fits. It's poetry, it's rock, it's 3 chords and the truth. 10 MP3 Songs POP: Quirky, ROCK: Emo Details: Her first career ambition (age 8) was to be a one-man-band. It's no wonder: Suzanne grew up in a prolifically musical midwest family and has been performing since she was wee. Relocated to the west coast, she has performed her eclectic originals solo and with a band for over 10 years. Suzanne and her song "Never Let U Down" won the Willamette Valley Folk Festival New Song Competition in 2003. Her music is impossible to pigeonhole, at times fiery raging, twangy hick-hop, or sultry, soulful crooning. It's college music meets blues. It's emo meets bluegrass. It's 3 chords and the truth. TAXI reviews: "Flat-out great songs!" "Loads of character/originality" "I was completely captivated throughout" "signature style" "extremely tight"
