Ten of the tracks on offer appear exclusively in the compilation. The brilliant dreamy melodies are created by some of the most important greek ELECTRONICA producers, with international releases in important labels such as: MOLE LISTENING PEARLS, INSTICT, GOOD LOOKING, SHADOW, UNDER THE COUNTER, STATRA etc. The first track is the wet trippy jazz of the D-falls by DIGITAL ALKEMIST ( having already released tracks in labels such as SHADOW and MOLE LISTENING PEARLS and having reached Nr4 in the German Dance chart with the 12 Right Version Left ) makes wait impatiently his first album. PALYRRRIA follows with a special remix by BLEND( with several releases in SHADOW, D-SOFA, INSTICT, PORK, STEREO DELUXE). Blend re-creates and bulds upon the track Morning Lyre out of the first PALYRRRIA album Zero Gravity (Rubber rec) creating maybe the first greek-dub ever. And a great dub track, indeed. Later we meet ELECTROWARE with Watching The Circle Dance a classic of the local electronica with no doubt. Based on a traditional dance tune of Karpathos and written after the meeting between DJ Stefan with Jose Padilla ,of Caf Del Mar fame, who was asking him for a track with traditional elements. Taken out of the EP The City (Rubber rec.) Fourth in the row are Parallel Worlds with the track Logic taken out of their forthcoming album Existence (Rubber rec). Analog romanticism of Tangerine Dream meets ambient in a perfect blend. A newcomer follows. PEEKAY TAYLOH (2!!!! Album releases are to be expected by him in the year in POETA NEGRA and VIBRANT labels) and the track Lucrative

Accords an atmospheric electro with dub elements. A melodic-space-night dream. Next in line is DRUMAMINE with 3D Nature. A psychedelic-ambient tune full of downtempo beats and acoustic instruments. The result seduces and takes off our souls. CROONER follows with the exotica bossa of Corcovado Nights In Space taken from their album THE SOFT ESCAPE (POP ART) released in Europe and Japan. They have performed in major Spanish festival along with acts such as Stereolab etc. Whispering vocals in one of the trippiest moments of the compilation. SUBBUTEO PERVERT comes next and the track Nightose. Cinematic nu-jazz electronica. Memories from the future. Afterwards we meet LUCIDT and Motor Laces. Abstract electro- jazz in a noise full of love. Next is NIGHTAZE and Silver Daylight that proves its title. Sugar sweet electro pop. And the first obvious hit of the compilation comes with track Nr.11. HYPLAR (with a global release of their first album from LES DISQUES AQUATIC). Dance to Dance is a perfect mix of 80s electro-disco and Bryan Ferry. An instant dance hit. Last but not least is NIKOS DIAMANTOPOULOS (a.k.a NIKKIE D) and the trackd Week Spirit. One of the best greek house djs-producers (with releases in STATRA , UNDER THE COUNTER) offers us an original piece of internal-passionate Athenian soul. A previously unreleased piece of gold. DEEP TONES 01 is a shiny summer soundtrack that mixes downtempo, trip-hop, electro-pop, ambient, electronica, ethnic and dub daring to record a greek point of view in the electronica spectrum. Chill out and enjoy DEEP TONES 01
