Alt-Country Folk with a bluegrass influence. 15 MP3 Songs COUNTRY: Alt-Country, COUNTRY: Americana Show all album songs: Yarn Songs Details: Yarn's organic blend of alt-country music has the warmth of old vinyl, the soul of Gram Parsons and the lyricism and profound musicianship that only comes from each members dedicated musical journeys. This newly formed Brooklyn based band has used their songwriting, guitars, mandolins, and shining vocal harmonies to capture a passionate following throughout the East Coast. Their debut album is due in March 2007 "The bands textured, bluegrass-tinged country is at once accessible and affecting. Carroll Gardens frontman Blake Christianas singing voice is the aural equivalent of a broken-in pair of jeansrugged, homey, and dependable. Among this bevy of top-notch bluegrass musicians, mandolinist Andrew Hendryxs thoughtful, articulate playing emerges as a crucial part of the bands sound. Though Yarns jam band roots are manifest at times, the instrumentation never preens or overpowers; Christianas masterful songwriting shines through in each song."
