Genghis Khan carved out a legacy of bloodshed and conquered kingdoms that has lasted almost eight hundred years. But while his name and deeds live on in the annals of history, his tomb has never been located... until now. Not everyone is convinced that the diary and the map, said to lead to the great warrior's final resting place, are authentic. Archaeologist Annja Creed is among these doubters. The reality is that the body was lost to history. But despite her skepticism, Annja suddenly finds herself pulled along an increasingly complex trail of clues, each more remote than the last. And as she and her companions race to their final destination, one thing is clear--the only tomb she may find is her own....
