

# Developing Successful Leadership

[DOWNLOAD HERE](#)

Research has shown that school leadership is second only to classroom teaching in its effect on pupil learning. As the demands on management teams become ever more complex, this volume offers a fresh and expansive view on the challenges to be met in developing a leadership career. With contributions from some of the most accomplished commentators on school leadership and management from around the world, this book moves away from the simple how to of becoming a principal, focusing instead on the wider issues of becoming a successful leader. The central aim has been to assemble powerful statements from international authorities that encapsulate leading-edge thinking on a group of interconnected themes based on the notion of developing successful leadership in, and beyond, schools. In so doing the text examines strategies for existing leaders developing their full capacity as well as enhancing the skills of those new to, or aspiring to, a leadership role. The chapters contributed by a carefully selected group of leading educationalists present insights on a number of central themes, including: Developing new skill sets in leadership The ethical and moral dimensions of leading an organisation Leadership for instructional and pedagogical success Developing leadership capacity and capability through strategic activity EAN/ISBN : 9789048191062 Publisher(s): Springer Netherlands, Springer Science & Business Media Discussed keywords: Fhrung, Management, Ausbildung Format: ePub/PDF Author(s): Davies, Brent - Brundrett, Mark
